

VINYL SCREEN

FEATURES

- U-shaped track rail with bottom hem bar end cap designed to move up and down inside the track opening.
- For Insects. Keep insects out without giving up your view or airflow. Retract the screen and let mother nature in.
- Clear Commercial grade vinyl
- For Weather: Raining or cold weather control.
- Exclusive rail design features a floating track that seals to keep pests and the elements out while flexing to prevent binding under wind load.
