AZZURRO  
LIVING

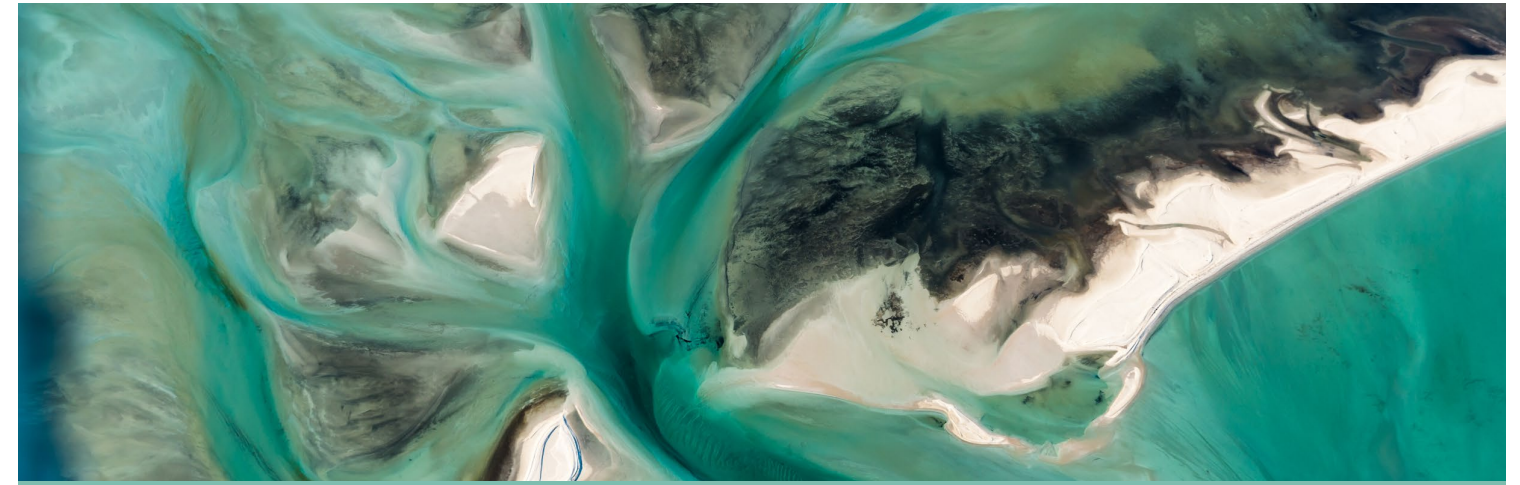

AZZURRO LIVING strives to bring people together who are passionate about good design. Our products are made to enrich the lives of those who use them. They're made to integrate beautifully into both indoor and outdoor surroundings.

Our passion for designing and developing luxury handwoven furniture led us to manufacturing in our fully owned and operated factory. This is how we manage a stringent quality control program on all products and projects from start to finish.

Master craftsmen and women bring our designs to life by hand bending and polishing aluminum frames along with hand weaving advanced, all-weather wicker and rope patterns.

We design, research, develop and test all products at the highest standards which enable us to deliver innovative, trendsetting furniture that can go anywhere, outdoors or in.

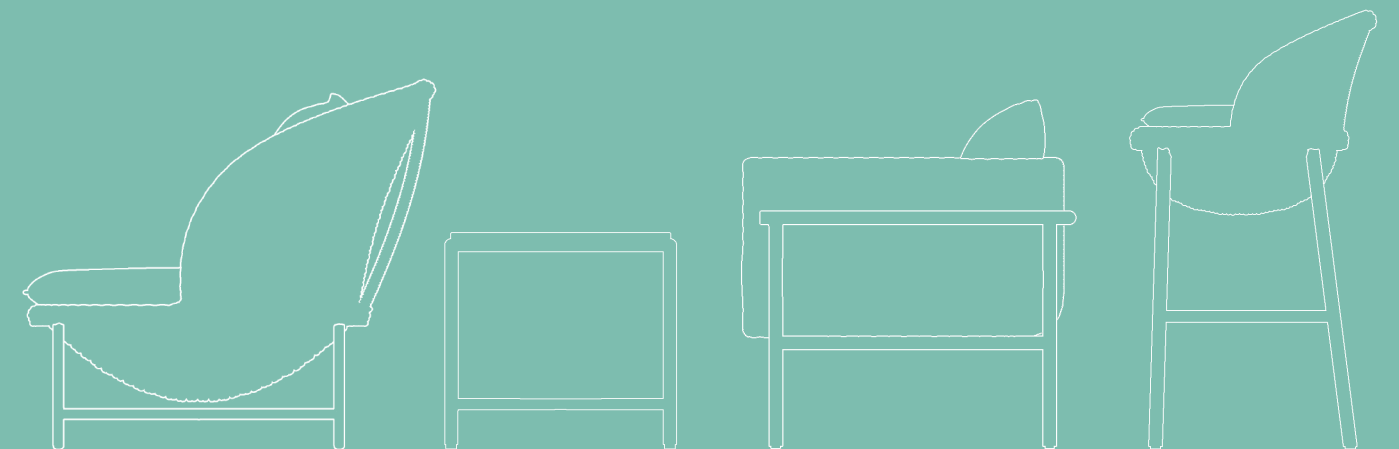

## THOUGHTFUL DESIGN

All designs in our collection are carefully selected to inspire. We are as passionate about the process as we are the final product. From researching, creative conceptualizing, material selecting and prototyping, we aim to deliver original designs that create a seamless outdoor or indoor lifestyle.

Our design team oversees all aspects of the products' creation, ensuring that every piece is designed for maximum enjoyment and aesthetic impact and is poised to perform in the harshest conditions.

This attention to detail makes every project a challenge and a new adventure that keeps us inspired.

# MONTAUK

Born by experimenting and researching macramé weaving techniques with experienced artisans. The design and attention to detail is captivating and finds the perfect balance between originality and comfort.

# SONOMA

Featuring bold lines and livable comfort. Each piece is handcrafted with all-weather wicker and contrasting charcoal powder coated aluminum for a sleek and modern style.

# CALAMUS

Elevating ordinary spaces through its unique blend of Bauhaus inspired furniture and graphic design elements.

# karni

Karni studios was born from a unique approach that merges graphic design and furniture design by bringing together inspiration and elements from both worlds.

The geometric patterns in Calamus were inspired by Bauhaus design era elements found in graphic art, architecture and furniture design. Relationships between form and shape, and how they evoke different moods to the viewer were integrated into every aspect of the design.

The diverse pairing of furniture and graphic design makes this unique and timeless design a standout piece in outdoor and indoor spaces.

# AMELIA

Focused attention to comfort and style with a distinctive hand knotted pattern that infuses simple elegance that accentuates the breezy character of the Amelia collection.

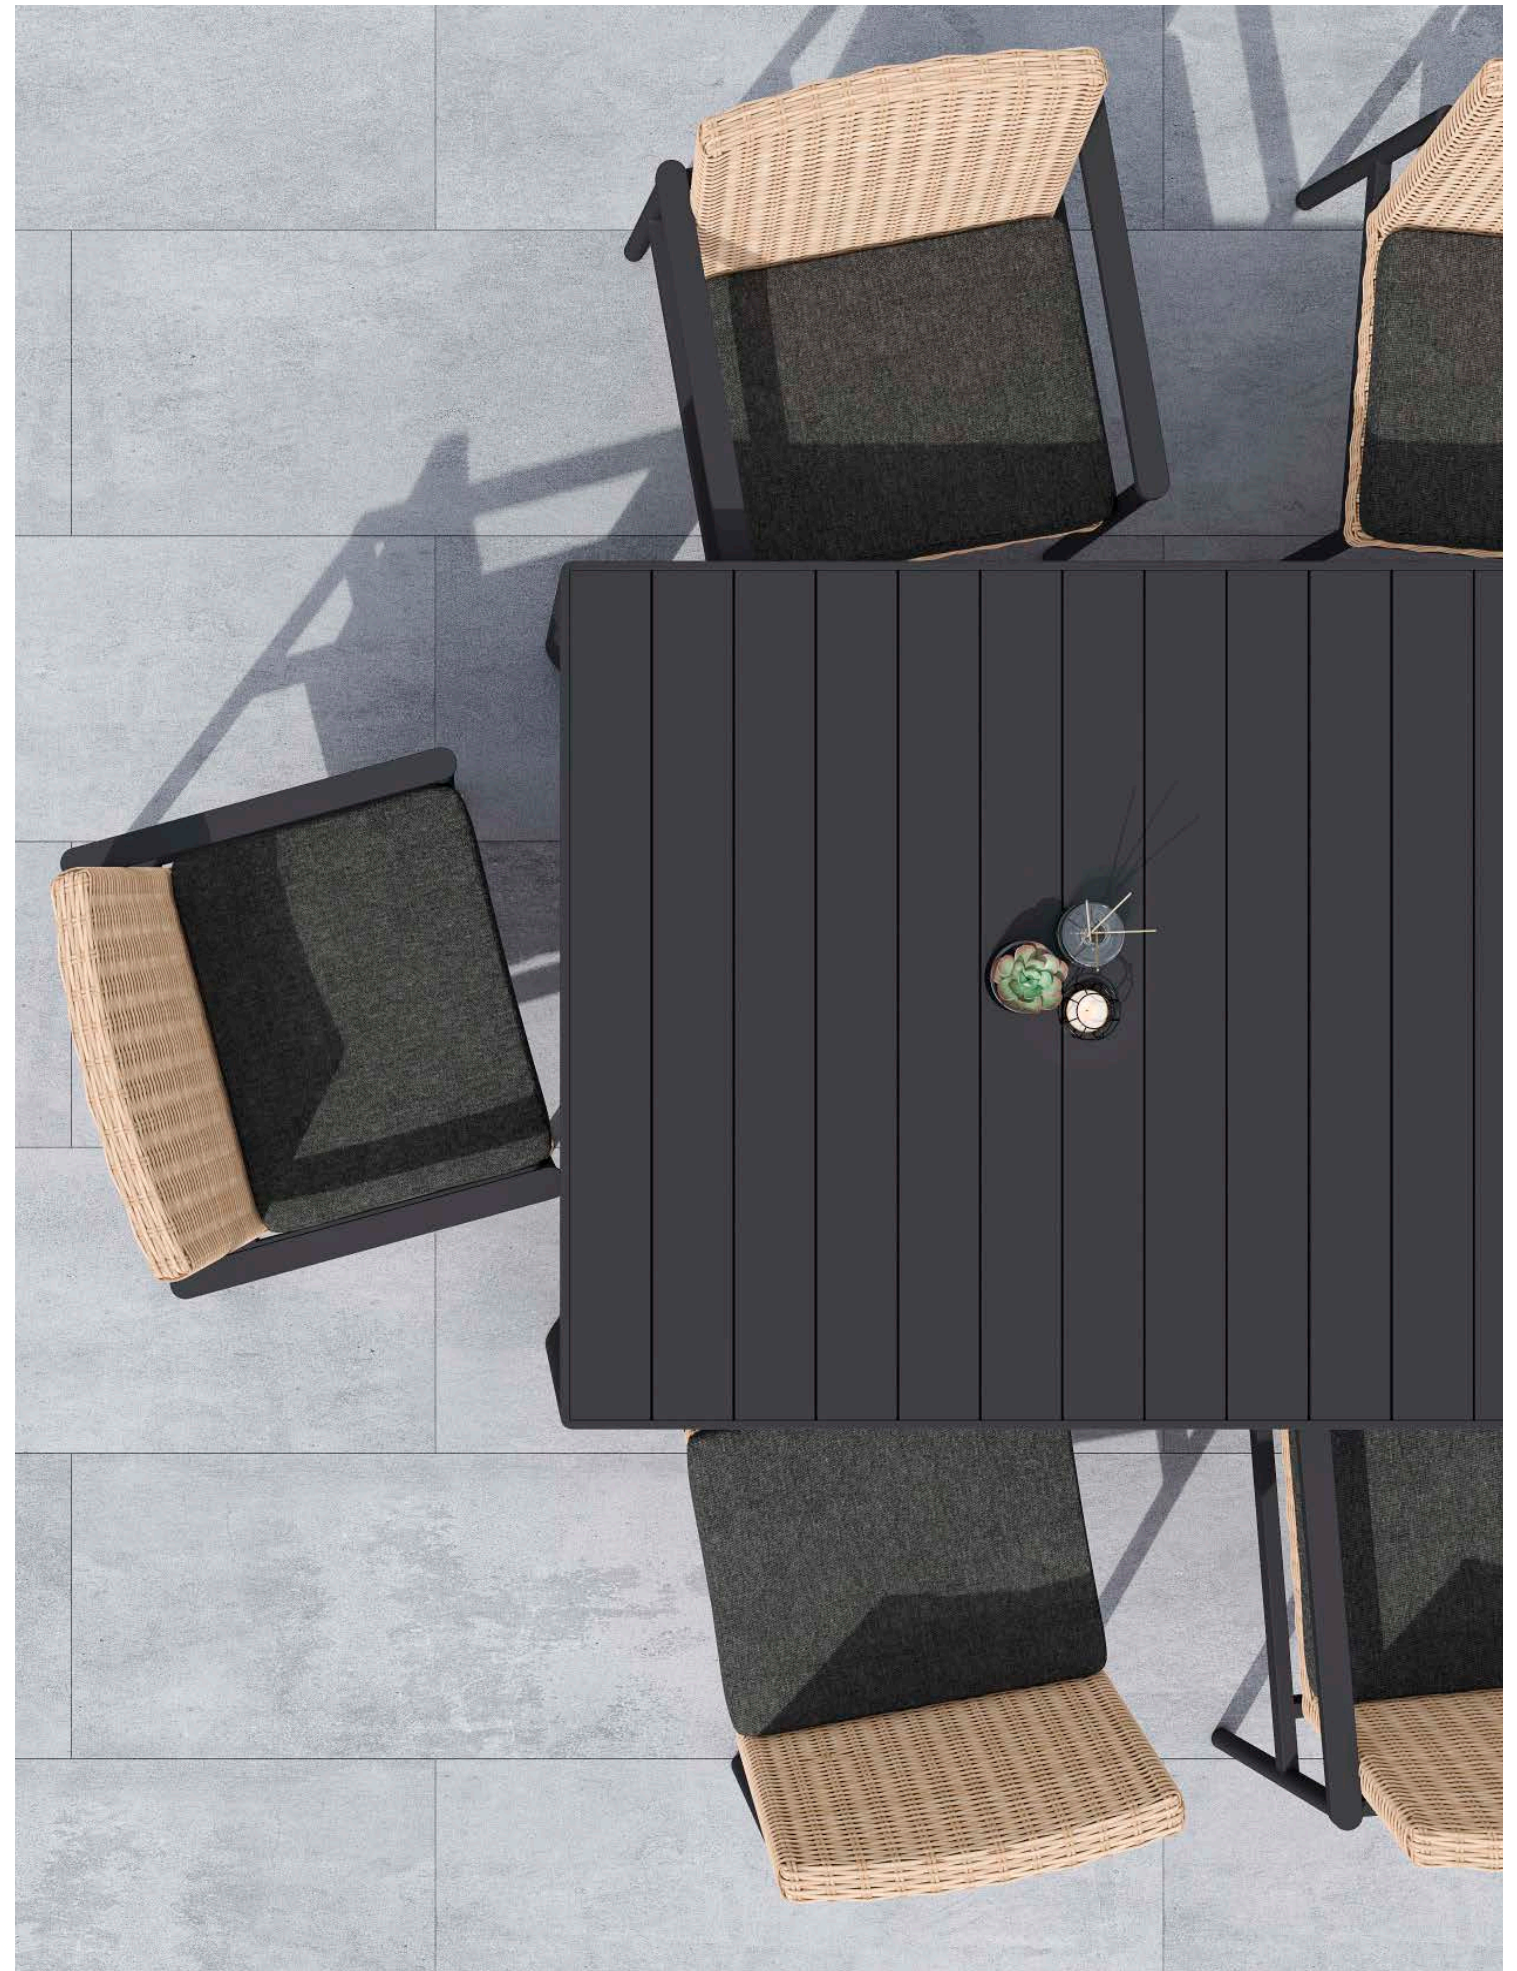

# TERRA

Modern elegance with sleek lines and natural textures. Inspired by the simplicity found in sophisticated mid-century design.

# AVALON

Showcasing an original  
handwoven pattern and an  
architectural aluminum frame that  
exudes chic elegance with a  
modern edge.

# BRIGHTON

Minimal lines, mixed materials, and functional design. Carrara marble tops stand in contrast to the powder coated aluminum frame and all-weather rope while providing space for storage or display.

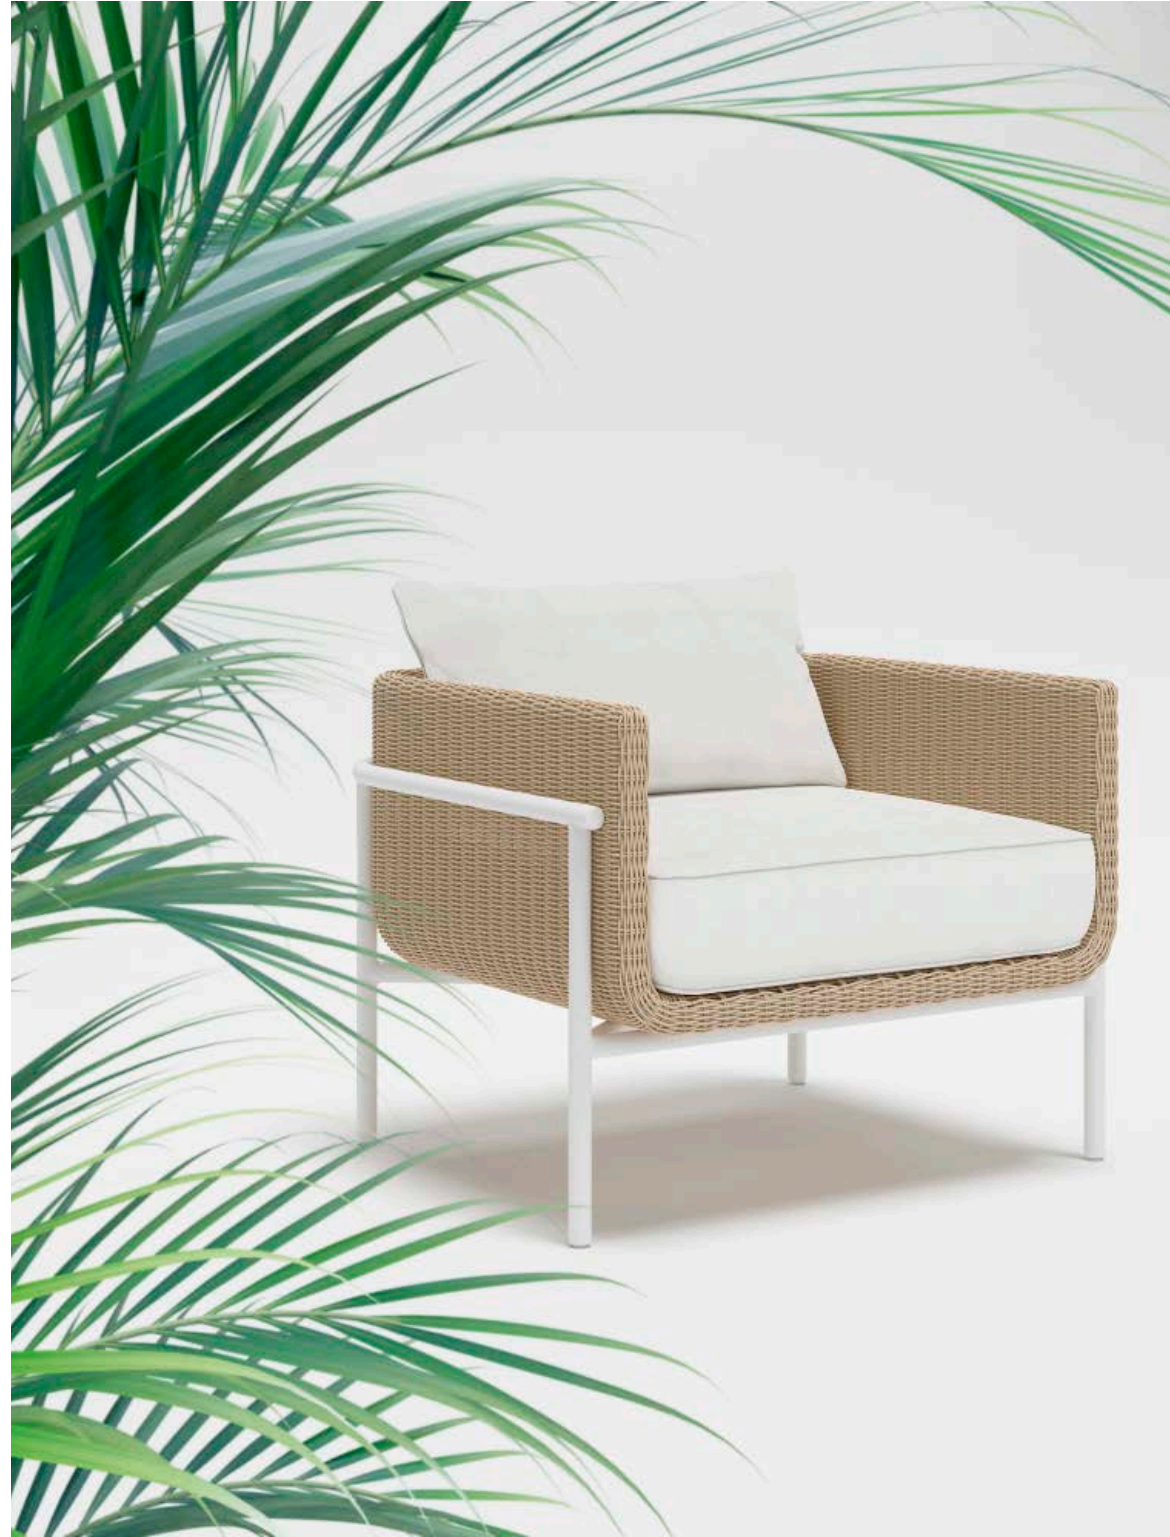

# HAMPTON

Clean lines and mixed materials to elegant effect. Hampton's highly architectural silhouette and curves are compelling and complex.

# CAPRIS

The Capris swivel chair is all about art deco curves, comfort and character. With a graceful organic form and sublime comfort, this chair sets an inviting tone.

# ROCKPORT

Djembe drum inspired and generous in scale, using elegant natural stone to complement the unique weave that is carried throughout this collection of tables.

# CORSICA

Handcrafted to perfection, this luxury driven collection features handwoven all-weather rope with a crisp color scheme and sleek aesthetic.

# PORTO

Bold shapes and sleek lines combine in a modern expression. Inspired by generous proportions and modern comfort, the Porto collection offers the perfect setting for relaxing and sharing quality time outdoors.

# NAPLES

Designed to stand out in a crowd, the Naples stacking dining chair brings a sophisticated sense of function and leisure.

# KIAWAH

This innovative chair captures the essence of modern living, featuring all-weather wicker and a generously sized frame for comfortable living.

# MONACO

A bold design reminiscent of the European coast, the Monaco collection offers generously proportioned frames and sublime comfort. A relaxing retreat to come home to.

# CATALINA

Character and versatility united in a beautiful design. The Catalina Club Chair distinctively combines a linear weave, subtle curves, and emphasized edges to ensure comfort and style.

# PALOMA

Beautiful from all angles and with great comfort, the Paloma Club Chair is stylish with an organic look that invites you to sit down and enjoy design at its finest.

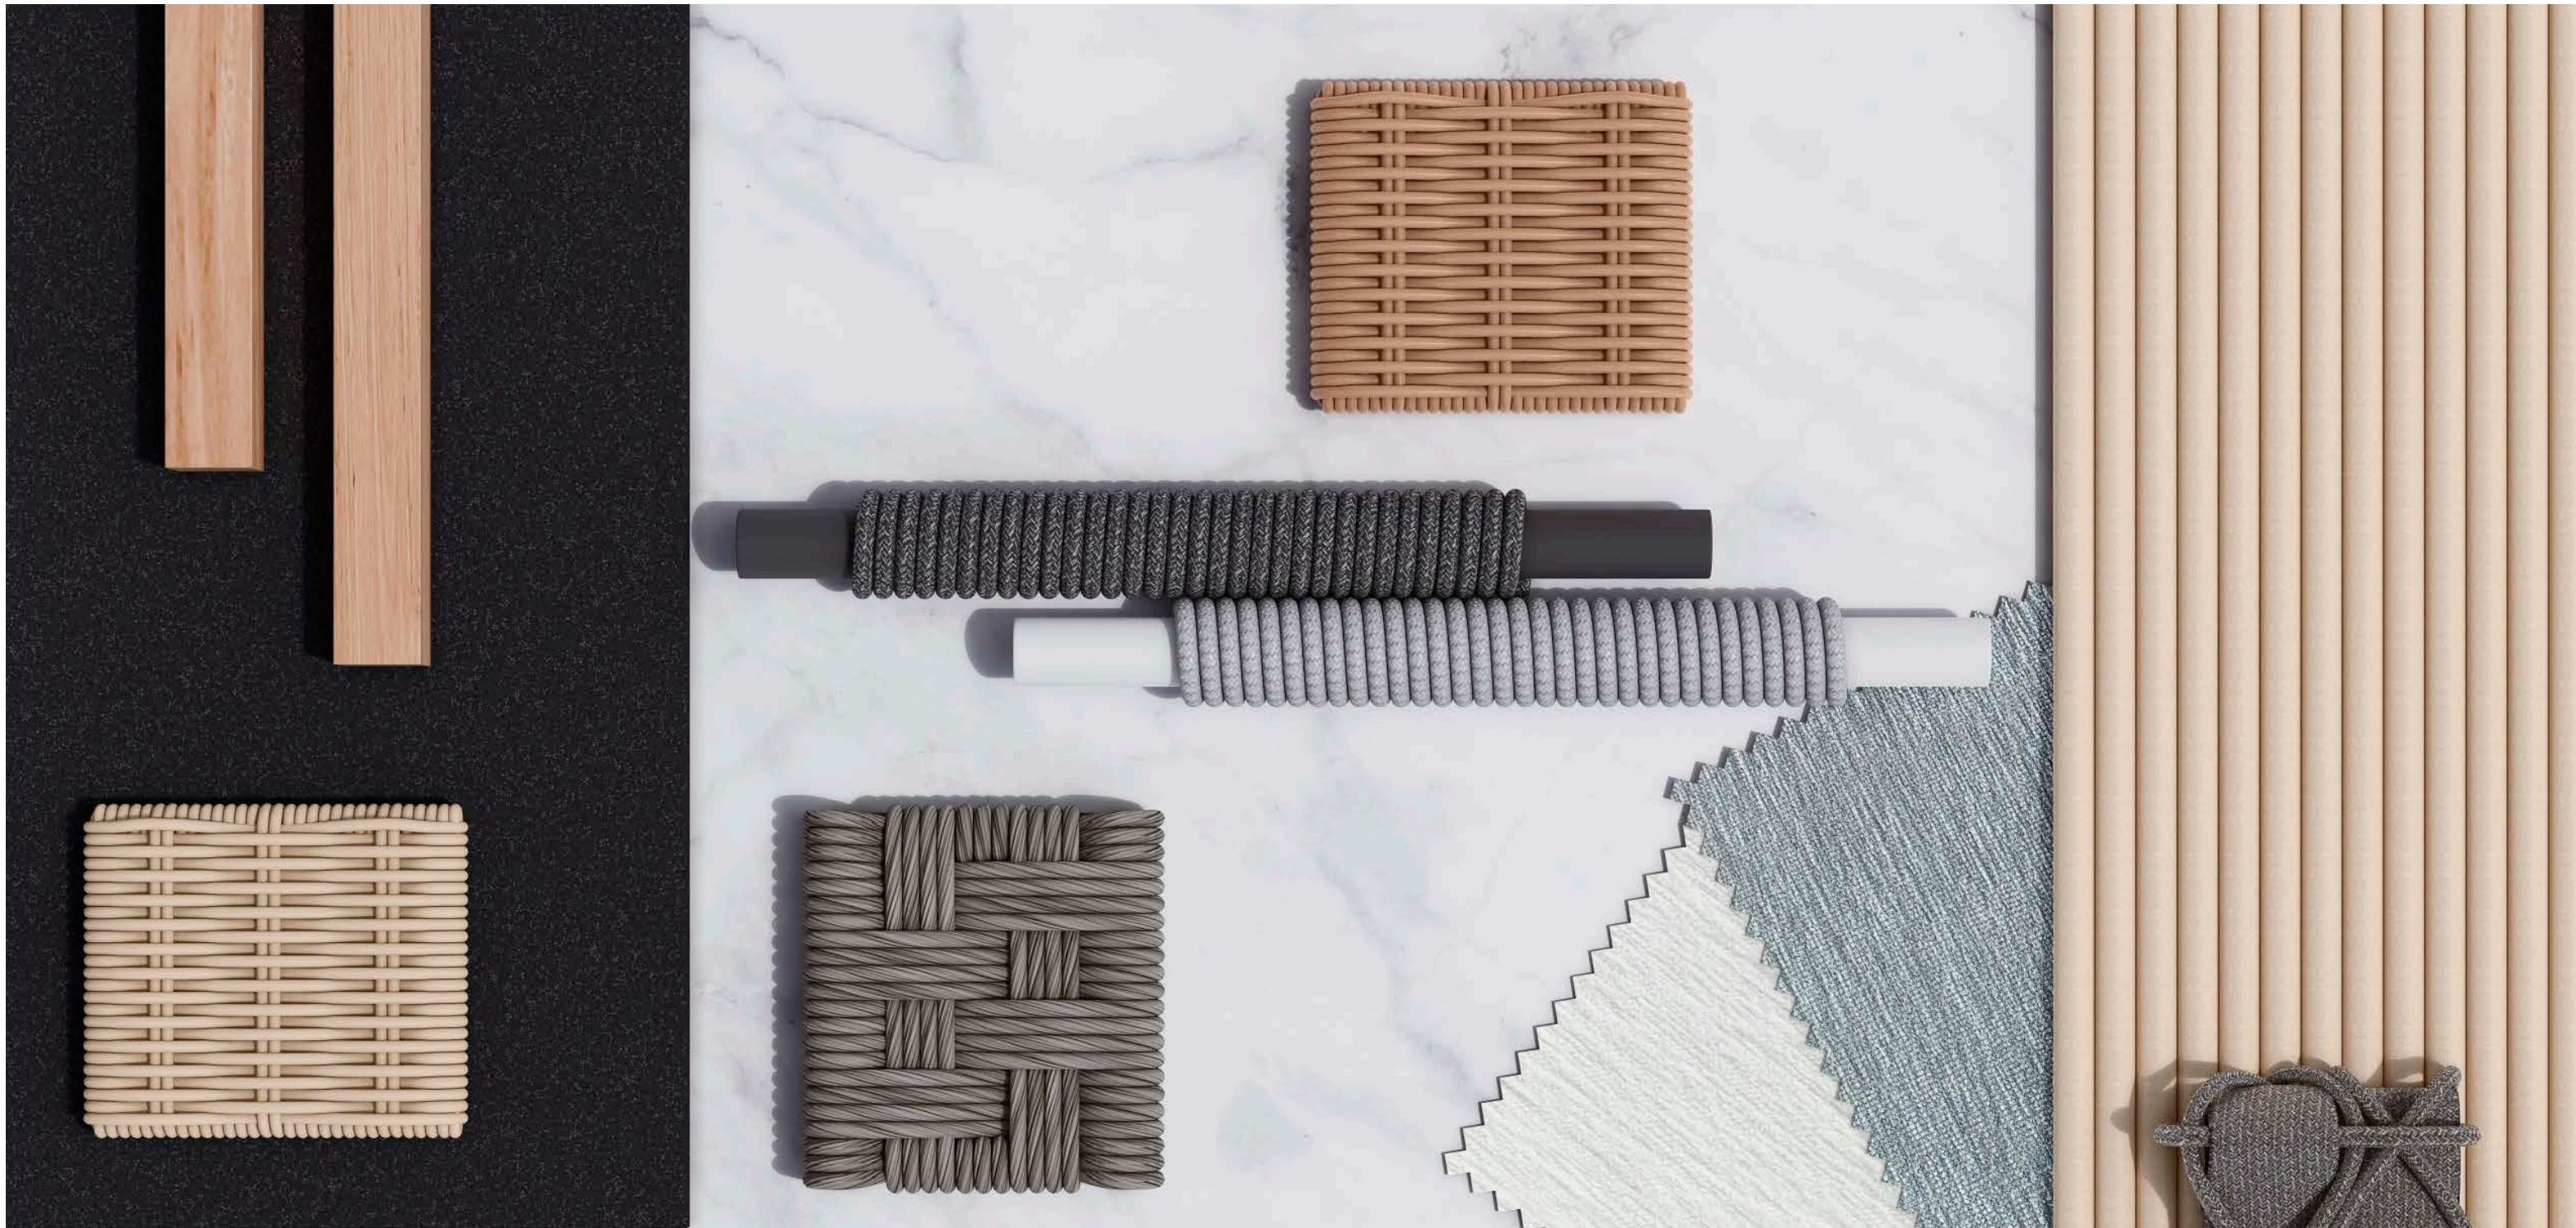

# OUR MATERIALS

All materials used in our products are suitable for outdoor use. They are made to withstand wide temperature ranges, UV rays, water, and overall harsh atmospheric conditions.

## CUSHIONS AND FABRICS

Azzurro Living cushions are made of high quality foam covered with Sunbrella® Pure Platform fabrics. This is our stock plush chenille fabric from the Sunbrella® Contract Collection. The Pure Platform Collection is intended to mimic the look and feel of a soft and luxurious indoor fabric with the durability to go outdoors, the perfect complement to Azzurro Living products.

Fabrics in the Sunbrella® Contract Collection are engineered to withstand the demands of rigorous cleanings and heavy use in high-traffic commercial environments as well as home use.

Sunbrella® upholstery fabrics are amazingly easy to clean. Most spills clean up with just mild soap and water.

Sunbrella® Pure Platform fabrics are GREENGUARD® Gold Certified and meet ACT Voluntary Performance Guidelines for use in high-traffic public spaces. The fabrics have a non-PFOA water-and stain-repellent finish.

## MATERIALS AND CARE

### All-Weather Wicker

Azzurro Living manufactures all-weather wicker from the highest quality man-made HDPE fibre. This remarkable material has many benefits including high suppleness, tear resistance, UV resistance and weather resistance.

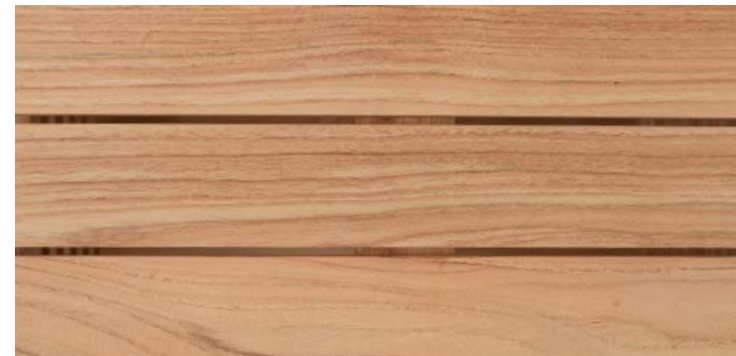

To clean, wash the furniture with a solution of mild detergent and water, rinse with clear water, and dry thoroughly.

### All-Weather Rope

All Azzurro Living rope is Olefin based and performs excellently for outdoor use as it is climate and UV-resistant.

It is easy to maintain and can be cleaned with a solution of mild detergent and water. Once detergent and water are applied, simply rinse with clear water, and dry thoroughly. Do not use oil cleaners.

### Teak

At Azzurro Living we only use high grade teak, harvested from FSC certified plantations. Teak is a very durable hardwood that requires very little maintenance. If left outdoors, teak will naturally weather to a silver gray color. You may notice small cracks, water spots and other discoloration during the weathering process. Eventually, it will even out to a uniform silver gray color. To clean, use a mild detergent and water, rinse with clear water, and dry thoroughly.

### Powder Coated Aluminum

Our powder coated aluminum is lightweight and very durable. We guarantee excellent resistance to corrosion, weather, and water. Azzurro Living aluminum is precision welded, hand polished, and requires little maintenance.

To clean, wash the furniture with a solution of mild detergent and water, rinse with clear water, and dry thoroughly.

### Natural Stone

The types of stone selected by Azzurro Living are natural, and therefore unique. Any crystals or streaks are specific characteristics of each stone.

To maintain, avoid treating the stone with aggressive protective substances that can alter color or texture. Simply wash with a mild detergent and water, rinse with clear water, and dry thoroughly.

### Concrete

Azzurro Living concrete products are made from GFRG (glass fiber reinforced concrete). This combination produces light yet strong products with a contemporary solid concrete appearance. Each product is finished individually, therefore each product is unique with variations in shading and marks.

Dirt and most stains can be removed from GFRG by scrubbing with a mild detergent and water.

Contract / commercial warranties are 1 year for all materials.

## ADDITIONAL INFORMATION

These guarantees are only valid when the product is used in those applications for which it was made. The guarantee will be automatically revoked in the event of inappropriate product use and is subject to Azzurro Living's general terms and conditions.

Although every effort is made to photograph our products and fabrics accurately, due to contributing factors such as photography lighting and print reproduction, we cannot guarantee that the colors shown will exactly match the color and finishes of our actual products.

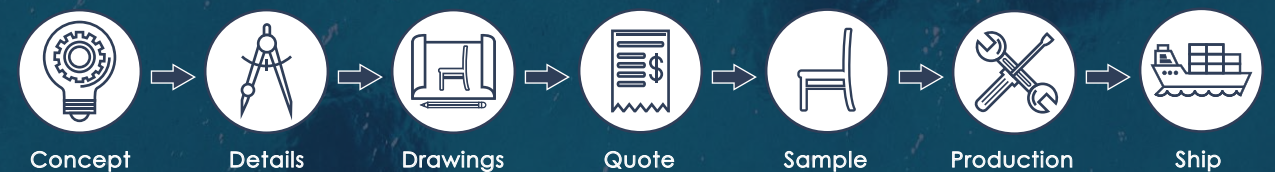

## FACTORY DIRECT CUSTOMIZATION SERVICES

Azzurro Living offers global design services and customization to any new or existing product through a fully owned and operated production facility. This allows for the opportunity to go direct to the source, warehouse yourself, and sell at high margins.

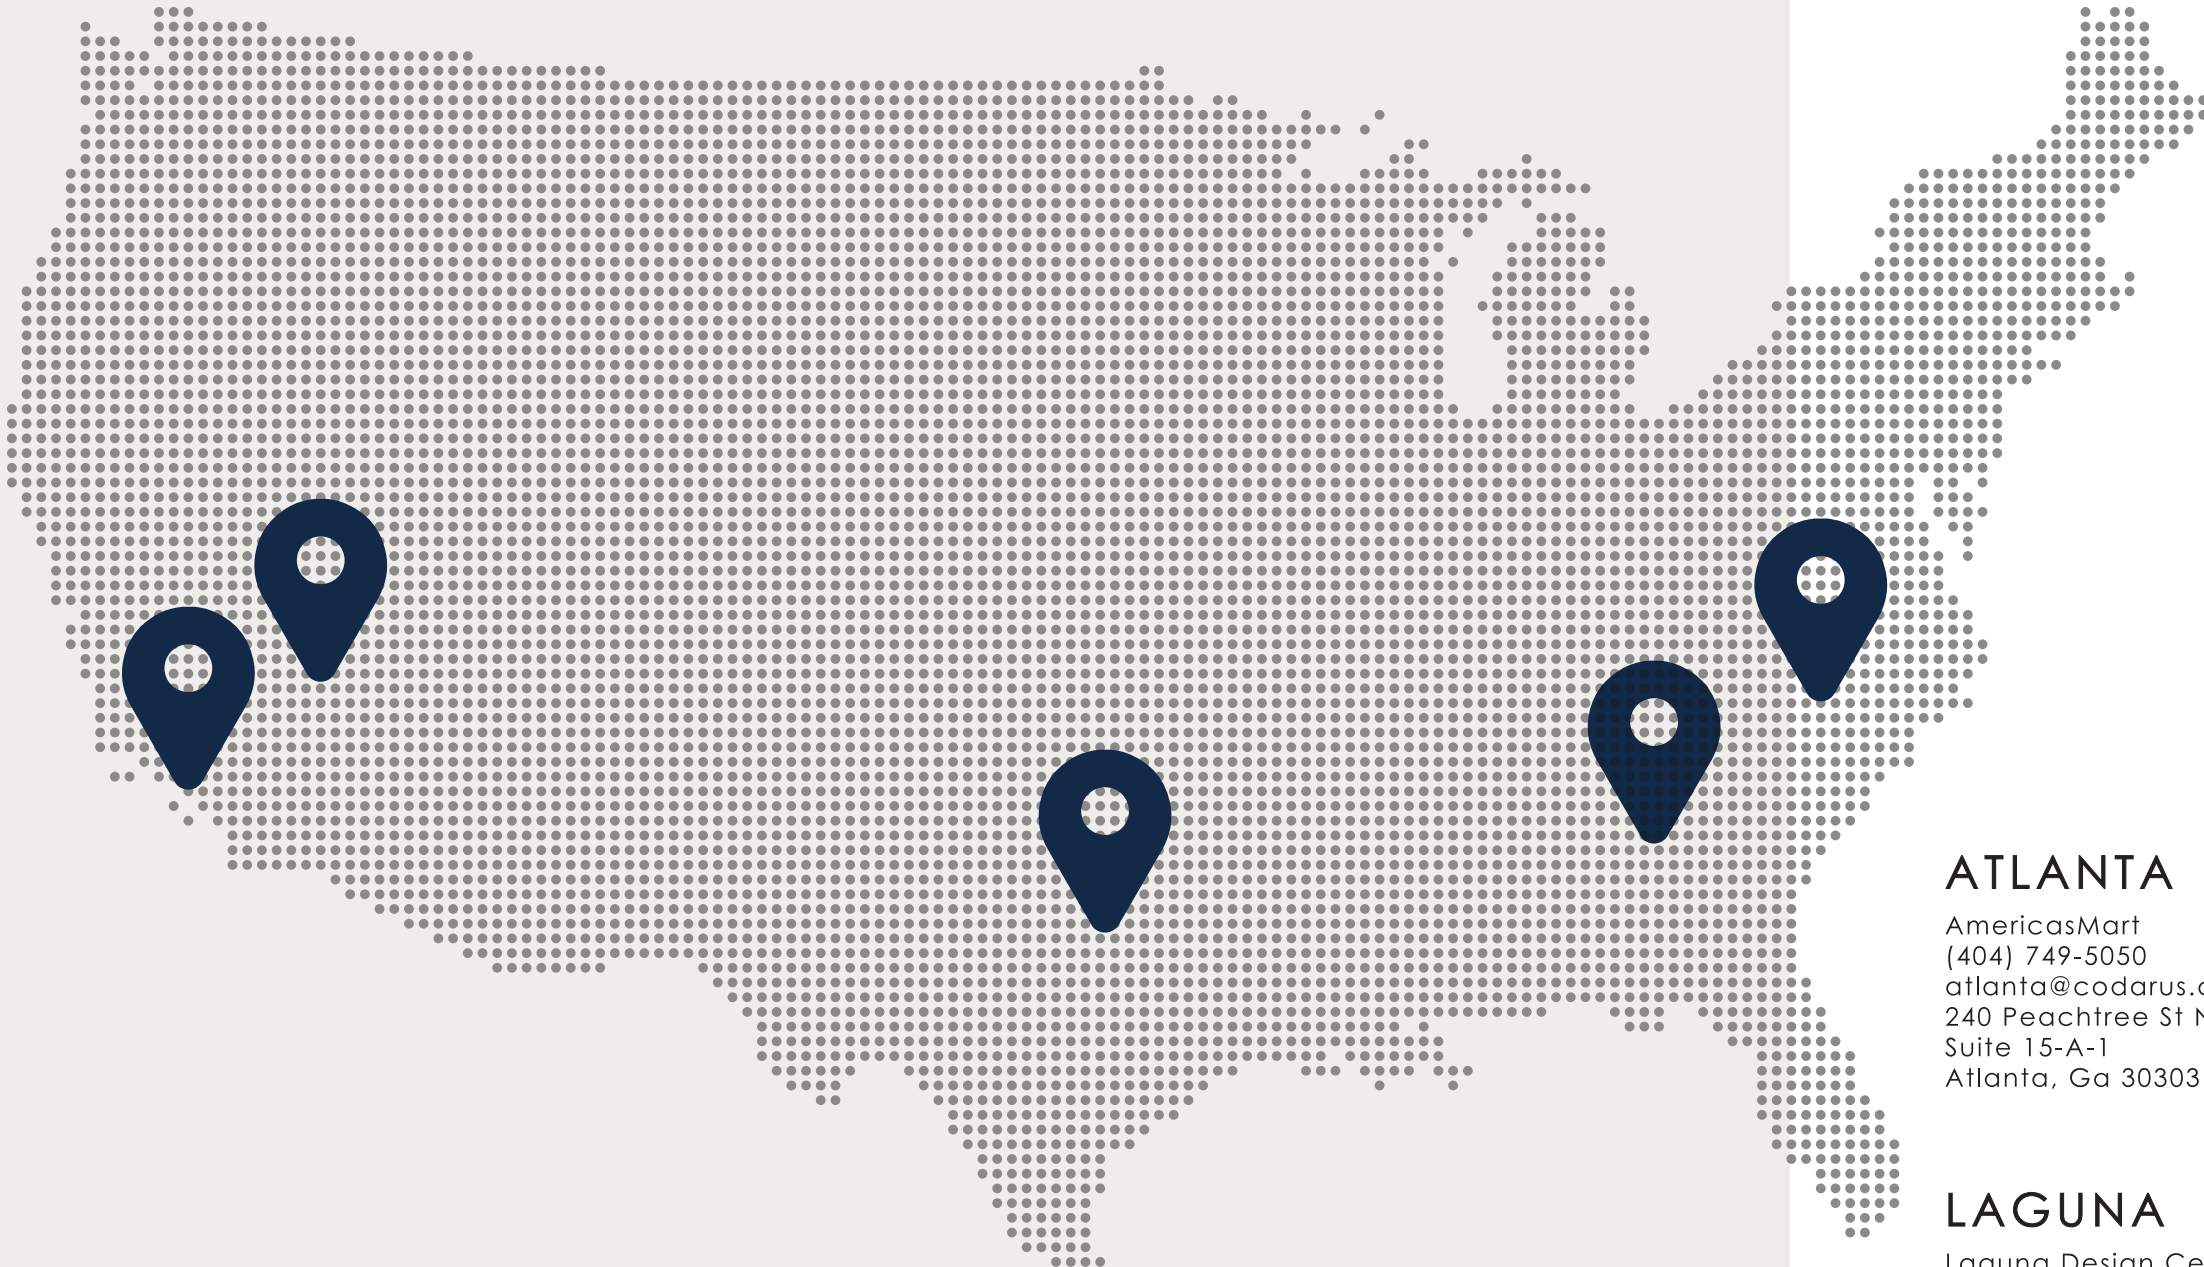

### How to go factory direct with Azzurro Living:

- Submit your concept, project details or customization requirements
- Our R&D and Design team will work with you on finalizing detailed specs and materials that are achievable
- We'll prepare drawings and visualizations for you to confirm
- Once confirmed, you'll receive a quote
- Upon approval, a sample will be produced
- When the produced sample is approved, we'll gear up for mass production and ship your products

It should be understood that customized orders can take longer to manufacture than standard products and minimum order quantities must be met for each project. Therefore, we advise always to indicate very clearly the requested delivery date.
